

## WORKSHOP OVERVIEW

Clinical Research has been globally evolving since past two decades. India has played a critical role as part of the global destination in bringing new medicines to life, improving the well-being of humankind. Clinical research is conducted at various affiliated academic medical hospitals and research centers.

Over the decade, Clinical Research has seen an increasing demand in specialized treatments with newer concepts and research methodologies. This has brought in requirement of collaborative approach of experts from various domains.

One of the key players to the Clinical Operation domain is **CLINICAL RESEARCH ASSOCIATE (CRA)** The CRA has the very critical role in 'monitoring' a clinical trial, which includes ensuring the rights and well-being of human subjects are protected, the reported trial data are accurate, complete, and verifiable from source documents and that the conduct of the trial follows the currently approved protocol/amendment(s), with GCP, and with the applicable regulatory requirement(s).

GCP section 5.18.1 emphasizes that monitors should be appropriately trained and should have the scientific and/or clinical knowledge needed to monitor the trial adequately and that a monitor's qualifications should be documented.

## PURPOSE OF WORKSHOP

- To educate practical aspects of Monitoring and its processes
- To highlight the importance of adherence of local guidelines
- To help participants know about Good Clinical Monitoring Practices
- To showcase about "Life of a CRA"
- To groom CRAs to meet global standards

The workshop will take participants through the theoretical, practical, and simulator world of a CRA. Participants will gain an end-to-end understanding of this role and its responsibilities.

## BENEFITS OF THE WORKSHOP

- Awareness of roles and responsibilities of a CRA
- Monitoring good practices and strategies from Industry experts
- Good documentation practices.

## ABOUT US

At InnvoGlamz, where we redefine event planning by offering a wide array of value addition services that transform ordinary occasions into extraordinary experiences. In the dynamic world of event management, we understand that crafting memorable moments requires more than just logistics and coordination. That's why we go above and beyond to provide a comprehensive suite of value-added services, designed to elevate every aspect of your event.

We are architects of transformative experiences. We believe that events should inspire, educate, and connect, leaving a profound impact on individuals and communities. Our mission is to elevate every moment, empower positive change, and bring value to the heart of every experience we curate."

## WHO SHOULD ATTEND?

- Clinical Study Coordinators (CRCs)
- Aspirant CRAs
- CRAs with any varied experience levels
